

Presentation Senior School

"A community of learners inspired by the vision and values of Nano Nagle"

Date: _____

Dear Parents/Guardians,

It has come to my attention that some children in the classroom may be infected with head lice.

In the interest of all children and staff, parents/guardians are asked to:

1. Check your child's hair at least twice per week for head lice. It is necessary to have a suitable comb available for this purpose which may be purchased from any local pharmacy.
2. If your child's hair is infected, please read the information provided by the HSE at <http://goog.gl/qAxw5E> and treat your child's hair with an appropriate product available from local pharmacies.
3. If your child has long hair, please ensure that it is tied up or platted to reduce the risk of him/her or other children becoming infected.

Yours faithfully,

Class Teacher
