Lexia Reading

Lexia Reading on Android Tablets: Get Started

Lexia Reading on Android Tablets is for students using **Lexia Early Reading®**, **Lexia Primary Reading®**, and **Lexia Strategies for Older Students®**.

A valid myLexia.com teacher account is required to setup the Android app (see Step 2).

System Requirements
- Android 3.2 or above
- 1 GHz dual core CPU
- 1 GB RAM
- Minimum screen resolution of 1024x786
- At least 600 MB free space
- Access to Play Store (for download)
- Internet connection (minimal bandwidth is used)
- Headset (recommended)

STEP 1: DOWNLOAD

Download the **Lexia Reading** Android app to your device:
- Use this URL:
  https://play.google.com/store/apps/details?id=com.lexialearning.lexiareading
- Or, in the Google Play Store, search for Lexia Reading. You will see the Lexia Reading app (see Figure 1).
- If you are prompted to accept permissions, click **Accept**.

STEP 2: ONE-TIME SETUP

After downloading, complete this one-time setup before student use.

1. Open the Lexia Reading app.
2. On the Welcome screen, select School or Home (see Figure 2):
   - Setup on a school device by an educator requires a **teacher email** and **valid myLexia password**. The password ensures students cannot reset the setup.
   - Setup on a home device by a parent requires a **teacher email address** (for a valid myLexia.com account) only.

STEP 3: ALLOW STUDENT LOGIN

Students login with a valid username and password (see Figure 3). Students who are new to Lexia Reading will be given Auto Placement.

Students will time out from the app after 15 minutes of inactivity.

Resetting Setup

Resetting the Setup will "undo" Step 2 and allow students from different customer accounts to login. Most customers will never need to do this.

To reset the setup, click the Wrong School? Click here to change link (see Figure 3). Changing the setup on a school device requires a teacher email and valid myLexia password.
